"The Coin Machines Merry-Go-Round"

WHY HALF A RECORD AT FULL PRICE?

by Bill Gersh

For sometime now, thruout the juke box industry, there have been complaints made to the record manufacturers as to the reasons why juke box operators were only getting half a record for full price.

In short, the average record produced by the average record manufacturer, features one late hit tune, and the reverse side usually features some old number which has long since been relegated to the junk pile.

The trade wants a full record for full price. If the operator must pay for both sides of the record, he at least wants to get two sides that he can use in his phono.

Certainly this isn't asking too much from the record manufacturers. This surely is not asking the record manufacturers for anything more than what they are supposed to have been selling the record buyer all the time.

If records are to bear the statement on their labels, "for use in coin operated musical instruments", then surely these records should be manufactured so that both of their sides can be used in a coin operated music machine.

The additional monies which will probably have to be paid for the labels to bear this very important phrase should require the manufacturer to give the juke box record buyer full value.

The trade has long asked this question of the record manufacturers, "Why only half a record for full price?"

But like many other questions which the juke box trade has asked the record manufacturers—it, too, goes unanswered.

Now with the Buckley bill in the House of Representatives Patents Committee, and with this specter hanging over the heads of the juke box men, something should be done, once and for all time, to cure many problems which exist between the industry and the record manufacturers.

If the record manufacturer agrees to help squash the Buckley bill; if he also agrees to have his legal departments help him to put the phrase, "for use in coin operated musical instruments" on labels of records for juke box users; then he most certainly should agree to give the men in this field two good sides on each record so that the operator will be getting full value from each record.

For years the juke box industry has been too busy growing up to pay attention to its component needs.

Now the time has arrived when juke box men realize that each and every individual bit of overhead expense must be carefully watched so that they can be assured of the highest possible profits.

The record manufacturer seems to somehow believe that only during this past year or so have the juke box men suddenly begun to pay attention to what he has been selling them all along.

Perhaps this can be attributed to the fact that as record production fell to low level, the attention of the juke box men was called to the records—the most vital part of their business.

"The Coin Machines Merry-Go-Round"

Therefore, since records are so important to their continued good livelihood, it is up to the juke box men to smooth out this part of their business to such a point where they will never again have to worry about it.

The juke box man wants, and has, a lot of problems to settle with the record manufacturers. He realizes that as the large radio plants begin to send their sales forces into the field that more and still more radio-phonograph combinations will be sold to the general public.

In New York City, one noted radio and television salesmanager predicts that over 1,000,000 radio-phono combinations will be sold in this city alone.

This means that a very, very large number of people are going to want to buy records. And this same condition, on a comparative scale, will exist everywhere in the country.

This also means, many of the trade's leaders believe, that the juke box man is going to get pushed around even more than he has been during the past few years. Unless he can immediately arrange with the record manufacturers to allot a fair and equitable quota of their production for his use, he faces many headaches and heartaches.

Regardless of what happens with the Buckley bill in the House of Representatives, even if it should be killed in the present Patents Committee, the juke box operator must once and for all time get printed on each record label the phrase, "for use in coin operated musical instruments."

Otherwise bills like this Buckley bill will continue to pop up at regular intervals and publishers and artists and their organizations will continue to hound the juke box field for more and still more revenue.

All these problems resolve themselves down to one basic fact—immediate arrangements with the leading record manufacturers, namely: Decca, Victor, Columbia, Capitol, Majestic, et al, to have an equitable share of their production allotted to the juke box trade.

Get two sides to a record—not half a record. Get that phrase on the record so necessary to the continued good welfare of this business. Bring back dealer's prices to juke box operators. And do a great many other things which only the members of this field meeting in open conclave can arrange.

All problems which exist between the juke box trade and the record manufacturers should be cleared off the decks, so that this industry can proceed to build for its greatest, grandest and most profitable future.

Half a record is not what the juke box operator wants for the full price he pays. He wants a full two-sided record, for the full, two-sided price, that he is paying for that record. This should be made one of the major points for agreement with the record manufacturers.

Those operators who state that, many times, especially in the pre-war era, they over-ordered on a record which proved a "flop" and were forced to sell it at whatever they could obtain to the local music stores, feel that designating a record as a "juke box recording" may not allow them to again sell it to the music stores in the post-war period, should they get stuck with any certain record.

Are these operators asking for the continuation of the very problem that is at present pointing a slashing, taxing knife at their livelihood?

Such operators should stop and consider that the records they are now purchasing can mean tremendous loss of their earning power should the Buckley bill triumph.

These operators would then pay away more in license privileges to permit them to play copyrighted music to ASCAP and MPPA and any others who might also come along, than they could ever lose in their entire careers as phono operators on bad records.

There are many problems facing the juke box trade in regard to its future. The leaders of this industry, from coast to coast, once and for all time, should get together to bring about a better understanding between the record manufacturers and the juke box field.

Such an understanding would, without a single doubt, eliminate the greatest obstacle facing the future growth of the juke box industry.

"The Coin Machines Merry-Go-Round"

PROTECT YOUR LOCATIONS

The average coin machine manufacturer has already entered deep into plans for reconversion. He awaits only a sufficient supply of raw materials to begin production. Coinmen should, therefore, give serious thought to the basic and most important factor of their businesses —their locations.

This is due to the fact that all leaders in the trade agree that more new blood will enter into this business than ever before in the history of this industry.

Whether or not this will prove to be the case, it is best to accept it as an assured possibility. Therefore, the members of this industry, who worked so hard to maintain themselves in this field during the trying and nerve wracking war period, should now attempt to completely assure themselves that their locations will remain their locations.

The one and only method which seems to meet with general approval, regarding properly protecting locations, at least where organizations do not exist, is the use of legal contracts signed with location owners.

These have solidity behind them. They always create a moral obligation on the part of the storekeeper. And even tho some legal minded coinmen do not believe that such agreements will stand up in court under the force of contract law, few retailers will sign a legal agreement and welch on it.

Therefore, until the time when something better can be found, it is up to every coinman to arrange to get his locations on contract. In this fashion he will at least have as good a hold on them as anything which has yet been devised.

As the new machines enter the field he will be better able to gauge his needs. He will know just how many locations he has where he can install the new equipment. This gives him a very great point of security.

But if he has no agreements signed with his locations, he will find that eventually the newcomer to the field, and many of these will be returned, maimed soldiers, may take his best locations away from him.

What is serious is the fact that some actually advise the storekeepers of the new machines and the prices of these new machines.. This not only harms the coinman, but definitely cuts down on the possibility of his ever being able to correctly adjust his commission basis.

And the time is coming when, to protect himself, the average operator will have to arrange for a much better commission for himself from his locations.

The years of no new machines and no machine buying are passed. Any day now may bring with it the news that new machines are again entering the market. Coinmen must plan how to make these machines pay for themselves. How to amortize them out of earnings without decreasing present collection averages.

At the present time — the one best method — is to get every location owner to sign a location agreement.

After that the average coinman can begin to plan ahead toward the arrival of the new machines. Can also begin to plan how to keep down bitter competition. How to foster greater earnings. How to, in every event, PROTECT HIS LOCATIONS — SO THAT THEY WILL REMAIN HIS LOCATIONS — especially after the soul grinding effort he put into them during this wartime period.

"TALKING OUT LOUD"

'46 BIGGEST MUSIC YEAR

Trade Eagerly Awaits New Products of Manufacturers. Foresee Music Dominating First Post-War Convention.

New '46 Models of Wurlitzer, Rock-Ola, Seeburg, Mills, Bally, Gable, Automatic Instrument and Others Hold Great Interest for Juke Box Field

NEW YORK — Reports from everywhere in the trade are to the effect that 1946, when juke box men believe the new music machines will first be seen, will prove to be the biggest music year in coin machine history.

Leading music distributors state that the backlog of orders already accumulated will keep music machine factories busy for a long time to come.

Juke box operators are anxious to see the new models of the music machine manufacturers. The general belief is that these will feature many new electronic principles discovered during the wartime period.

Also of great interest to juke box operators are the new remote systems which they believe the manufacturers will present along with the new models. Many are of the belief that the new wall and bar boxes and hideaway systems will outmode anything now on the market.

There is also a belief that the manufacturers may present their new machines all at one and the same time. This may happen, the rumor claims, at the first post-war convention.

With lumber continuing to be very tight coinmen do not expect large quantity deliveries of the first new models. But they do believe that as soon as lumber restrictions are removed manufacturers can be expected to set new production records.

Also of great interest to juke box operators will be the prices of the new units. Many believe that prices will be much higher than pre-war. Some even expect new prices to be practically double former figures.

COINMEN ELATED OVER COMING CONVENTION

Expect First Post-War Convention to Yield Many Great Surprises. Await Official Dates.

CHICAGO — Great elation is noticeable here among leading coinmen regarding the coming first post-war convention. All await the official dates which should be decided upon by the manufacturers sometime this past week.

In every division of the industry there is expected to be many surprising innovations in the new equipment which will be shown.

Many wholesalers here are also planning to have booths at this first post-war show. All expect that more business will be transacted at this coming convention than was ever done at any former meet.

Belief here is that regardless of what dates will be agreed upon among the manufacturers for the convention, the town will be jammed with coinmen at least two weeks prior to the actual show.

Some coinmen have indicated that they intend to arrange for meeting space right in their own showrooms and offices a week or so prior to the convention itself to entertain many customers they haven't seen in sometime.

WHOLESALERS ASK MFRS. TO ANNOUNCE NEW MACHINES DATE

NEW YORK — Leading wholesalers here are asking manufacturers to announce the approximate date when they expect to present their new products so as to offset any slow down on sales of used equipment at this time.

These wholesalers are adamant that no new machines, in any real quantity, can be expected before the second quarter of '46. But, they state, unless the manufacturers make this statement, operators believe that this is simply hearsay.

In the meantime, they claim, sales are hurt and will continue to be hurt unless the manufacturers make statements regarding when they believe their new products will be coming off production lines.

They also explain that the average operator realizes that he can use this six months interim period before new machines appear to cover all open locations in his territory with used equipment.

BIG MODERNIZING PROGRAM UNDER WAY THRU TRADE

Many Renovating Present Spots. Some Buying. Others Building.

NEW YORK—The biggest modernization program in all coin machine history is under way thruout the trade at this time.

Distributors, jobbers and even operators are not only renovating and moderizing their present quarters, but many are buying new places and some are even building new quarters.

This is the first time in coin machine history that such effort has been put forth to greet a new machine era.

The optimism apparent thruout the trade, in this modernizing program, is extremely heartening to all. Belief is that when this program is completed it will tremendously raise the level of the industry thruout the nation.

M'ARTHUR USES "PINBALL" AS "VOICE CALL" FOR JAP PLANES

MANILA, P.I.—In his instructions (Saturday, Aug. 18) to the two Jap planes flying to get the terms of surrender, General MacArthur advised:

"Air communications center will guard 8915 kilocycles with the voice call, 'Pinball'."

It is fervently hoped that the General will give the Jap no opportunity to "tilt".

This voice call pleased coinmen and others for more than one reason. As is well known the Jap has difficulty pronouncing the letter "L", usually causing it to sound like "R". One of the first passwords the Marines used for night fighting was, "lallapaloosa", because of this.

(Perhaps the General could have used the voice call "pingame", but there is no doubt there must be a much sweeter sound to the word "pinborr" when it twists the Nip's tongues about.)

WALL STREET JOURNAL TELLS ABOUT VENDERS

NEW YORK — The Wall St. Journal in an ad (Sun., Aug. 19) about vending machines wrote, "As a result, the vending machine industry has been victim of local prejudices, anti-slot machine ordinances or taxes.

"This 'gambling shadow', industry members believe, explains much of their trouble with petty thievery . . . necessitating engineering to thwart every conceivable method of 'beating' their machines.

"While working to change the public's attitude, they plan big expansion . . . affecting distribution of many consumer products . . . groceries, drugs, cosmetics, hosiery, etc."

The ad also relates the story of Hero of Alexandria who, between 100 and 200 B.C., invented a machine to dispense holy water at 5 drachmas a portion.

"DONALD DUCK" FINDS SLOT PLAYER

NEW YORK—In the Walt Disney cartoon strip, "Donald Duck", a character with one powerfully muscled arm, compared to his other arm, is followed about by Donald who imagines this overdevelopment came from many things, such as hanging onto subway straps, until the past portion of the cartoon shows the man playing a slot machine, supposedly having over developed the muscles on his arm so doing.

WPB ENDS LUMBER CONTROLS SEPT. 30

WASHINGTON - Government controls over lumbere were eased this past week and they will be removed entirely by the end of September.

J. Philip Boyd, director of the War Production Board's lumber division, said that all controls were being removed immediately with the exception of those necessary to fill priority orders.

Mr. Boyd reported that cutbacks in military orders had released large supplies of lumber, but that it would take several weeks to build up stocks in yards where supplies have been depleted. Supplies will continue tight for about 30 to 60 days, Mr. Boyd said, but by the end of the year there will be adequate supplies for "forseeable requirements".

Any lumber supplier (sawmill, concentration yard, or distributor) may now sell any kind of lumber to any person on unrated orders provided this does not interfere with the filling of priority orders.

JERSEY TOWN KICKS PIN FEE TO $250

EAST ORANGE, N.J. - This city of about 70,000 population, on the motion of Councilman Lassans of its 3rd Ward, this past week accepted Mayor Marten's recommendation to increase the present pinball license fee from $100 to $250 per year.

Some councilmen favored a $500 per year license fee, as proposed by Orange Safety Director Riley, as a means of eliminating the machines entirely. A $360 compromise fee was discussed by the council, but a majority agreed that the fee, as proposed by Mayor Martens, was high enough to keep the machines within a reasonable number. Council will authorize this amendment to its pinball ordinance at its meeting this coming week.

SLOTS PAY OFF U.S. OVER 7 ½ MILLIONS

WASHINGTON - The Internal Revenue Department reported this past week that it had collected $7,556,200.00 during the 1945 fiscal year thru the $100 tax on slots. A total of 75,562 machines were reported for tax purposes during the 12 month period ending on June 30.

Nevada, where slots are legal, reported 1,020 machines; California, 9,015; Illinois, 6,815; Washington, 5,570; Louisiana, 6,280; Minnesota, 4,363; Ohio, 4,815; Pennsylvania, 4,065; and Wisconsin, 4,555.

Coinmen are worried because the publicity which this fact received in the press all over the nation. Many believe that this may cause campaigns to eliminate the units in some of the states mentioned by the IRD.

DENVER PASTORS PROTEST SLOT PLAN

DENVER, COLO. - The Denver Post of this city headlined the fact that local pastors were protesting the plan of State Treasurer Bedford to use slots to aid the state in raising revenue.

This paper stated that there are now 416 slots in the state paying the $100. Federal levy. Denver is reported to lead with 28, mostly in clubs and lodges. Canon City, Colo., ranks second with 21 slots. All other cities, featuring from 1 to 20 were listed in this front page story.

Treasurer Bedford was reported to have stated that his suggestion for the state to avail itself of this revenue producing medium was meeting with approval and widespread favor. Denver's ministers, laymon's church organizations and educational forces were promising concerted action to kill it.

WANTS MFRS TO STOP SELLING CLUBS

OMAHA, NEBR. - Tony Mangano of Howard Sales Co., this city, writes, "We believe that all manufacturers should stop, or be barred from the practice of selling machines to Clubs, bars, locations, or to operators who purchase less than 5 machines.

"It certainly leaves a bad impression with any jobber or distributor to have a product, which he has advertised and established in a certain territory, sold by the manufacturer to individuals in that same territory.

"Such practises certainly do not create any incentive for the jobber or distributor to continue his efforts toward the increase of sales for that particular product".

THRU THE COIN CHUTE

EDWARDS GETS WYOMING TAX REPEALED

DOUGLAS, WYO. - Bryan E. Edwards of Radio & Electric Service, this city, who made an appeal to all coinmen thru The Cash Box a few weeks ago asking for help to offset a proposed new ordinance by this city of 2,500 population asking for $25. per year per phono and $1 per year license for each wall box, reports that he, too, as have many other coinmen in the past, come to what he calls, "a rude awakening", by learning that there was no central source (such as a "National Tax Council") where he could go to get former precendents, data or expert tax information to fight this ordinance.

Regardless of this, Edwards, who had just returned to town in time to meet with the city council, and who found them willing to listen to him, presented his side of the argument against such taxation with a well written, logical three page brief. He also appeared in person before the council and explained that such a tax would put him and other operators here out of business. The result of this meet with the city council was to gain a repeal from this proposed ordinance.

URGES TIE UP WITH SMALL RECORD MFRS

MACON, GA. - Ed. Heath of Heath Distributing Co., this city, believes that the time has arrived for the trade to tie up with the small record manufacturers to bring larger volume production for the juke box trade.

He writes, "Regarding the record situation. We receive circulars every day from all over the country advertising the latest and best recordings at retail prices. The record situation has been bad in Georgia for so long that this no longer receives any comment.

"My idea for a solution is to get distributorship of all small companies who want to sell to music operators first. We never get over 20% enough Race and Hillbilly records. I believe any manufacturer could really prosper recording these two types, and sell only to reputable distributors who would, in turn, sell to phono operators first."

ASKS TRADE DEAL WITH BONAFIDE OPS

BIG SPRING, TEX. - Oscar Glickman of this city writes, "Here is what I believe will do the operating business more good than anything else - get people interested who have money and aren't afraid to turn it loose.

"This business is old enough now where people know what it is, what manufacturers and distributors are good and what operators are good, too. When these old established firms are going to invest in new equipment, they want protection. They need it. They are entitled to it.

"Music is just as necessary to life as air and water. Those who are willing to invest in music are entitled to protection. As it has been, anybody with enough down payment on 5 machines is classified as an 'operator'. Operating is a business in itself, and big business at that. It should be run as a real business.

"Major manufacturers like Ford, General Motors, RCA Victor, Philco, etc., before they let their lines out investigate the man and his company to see if he has sufficient capital, ability, experience, etc., to take on their lines. They give the dealer protection. If they gave anybody the line, because he could buy 5 pieces of equipment, how long would a good man stay with them?

"The coin machine manufacturers and distributors can do the same. The operator needs to be protected. All of this must take place before long or the operator will simply have to pass out of the picture and the locations will own their machines. At least that's the way I see it today."

SUGGEST SOME STANDARDIZED PARTS

INDIANAPOLIS, IND. - C. E. Armstrong of Business Stimulators, this city, writes, "The manufacturers of pinballs and phonos should use more standard parts in their equipment so that there will be less outlaw parts to try and find for repairs.

"Glass sizes on pinball games should be uniform instead of the 6 various sizes in use today. Legs for pinballs should be the same size instead of different sizes. A better way of fastening the front rails down on pinball games so that they can't be pried up and wires run under on ends. Remove the words 'free play' on back glasses, use something like 'replay'. Phono manufacturers to use a standard type of radio tube so as not to have to stock 75 different sizes and types. Phono makers to protect their dealers who have been given territory the same as auto dealers are protected. One model only should be made each year by each phono manufacturer."

SUGGESTS "UNITY" STOP DIRECT SALES

BROOKLYN, N.Y. - Sol Tabb of Hysol Music Company, this city, urges that the trade unite to protect itself from coinmen who sell direct to locations.

Tabb writes, "You ask us to 'Speak Up', so here goes, because I know you will do your best to help the operators, as you have been doing right along.

"I would like to get after the yokel jobbers who, for an extra ten dollar bill, will sell any storekeeper a juke box, and thereby put a legitimate operator out of one more stop. When an operator loses a location in this manner we should expose these yokel jobbers in The Cash Box. And, if we stick together, we can refuse to buy from them.

"You know that 'In Unity There Is Strength'. In this way we can remove this particular evil from our industry."

MECHANIC URGES "PUBLIC RELATIONS BUREAU

GRAND RAPIDS, MICH. - W. E. Reynolds, employed as a mechanic by Wolverine Sales Co. this city, writes, "I do not own or have any interest in Wolverine Sales Company. But I have worked here as mechanic and any other work incidental to the business for the past three years. So what I am about to say is not necessarily the company's opinion.

"What I wish to say in this letter concerns one of the comic strips. There is one 'Kerry Drake' that has been called to my attention. Beginning on August 3, in this strip, it shows gangsters setting up slot machines over the protest of storekeepers. And this strip will continue with the same plot for 5 or 6 weeks.

"Now this certainly is giving the public a completely false view of the coin machine business. And, what is worse, many of them will believe it. In fact, I have already been asked if this is true. I wanted to call this to your attention. It is not the first example I have seen of it. I also intend to write direct to the Publisher's Syndicate who carry the strip.

"This all goes to show what a need there is for a 'Public Relations Bureau' that you advocate. If the public had a better understanding of the coin operated field there would be no harm ever done to this industry."

AD SECTIONS COMBINED THIS ISSUE

NEW YORK - Beginning with this issue, The Cash Box takes one more step forward in its post-war program. Readers will note that former sections I and II have now been combined. Other changes are also planned and these will come about as conditions permit. Announcements as to these changes will be made as they occur. Suggestion from readers for what they would like to see in The Cash Box in the post-war era will be appreciated.

"In the meantime", Al Sebring reports, "used equipment sales and buying continue good".....Lee Jones who retired from the coinbiz during the war period is talking about getting back into action again and expects to have an announcement very shortly.

Your correspondent ran into none other than Lloyd Elliott who has been in seclusion for many, many years. He now tells us that he will be back in the coin machines biz very soon. Many will remember when Lloyd came from the West Coast and sold Frank Bering of the Sherman Hotel on allowing him to put his first model of a coin operated baseball game with large, glass enclosed playing field, in the lobby. This was the start of other coin operated amusements to follow later and eventually the permanent arcade so familiar to coinmen who visit the Sherman Hotel.....Brother, take it from me - they're coming back to the coinbiz - and in droves.

NEW YORK'S COINROW IN ACTION AGAIN

NEW YORK - Visitors here are much impressed with the speed with which this City's famed Coinrow has leaped back into action now that the possibility of new equipment will soon again be seen, becomes imminent.

The older firms are renovating their quarters. Many new firms have entered and many more are expected. Ops are again beginning to wander down the street and are meeting in front of distrib quarters and talking things over. Tenth Avenue is once again assuming real action for the trade.

Old timers here state that Coinrow is happier than it has ever formerly been with the return of normalcy. Coinmen are anxious to get going and all are looking forward to the new machines.

At present the following firms can all be found on Tenth Avenue, New York's Coinrow: Jafco, Inc.; Modern Music Sales Company; Pan Coast Amusement Co.; Globe Devices; H. Rosenberg Co.; Economy Supply Co.; West Coast Dist. Co.; Dave Lowy Company; Metro Distributing Co.; Atlantic Distributing Co.; Marcus Klein; F.P. & K. Distributing Co.; Emby Distributing Co.; Moe Luber and Mike Munves.

New offices are now being readied by: Simon Sales Co.; East Coast Distibuting & Sales Co. and many others.

THRU THE COIN CHUTE

REMEMBER 'WAY BACK WHEN...

The late Wm. Rowe built his first cigarette vender in the basement of his California home?.....When Seca of Germany sold plenty of their scales at what was then called the "scale convention" - held at the Hotel Winton in Cleveland in '29?.....And remember the sensation created by Howard Peo's "Whirlwind" - and how many of the same were seen suddenly blossoming forth all over the nation?!.....When the late Pat Skeffington operated Deweys in Toledo and dined friends who visited with him at a little Syrian restaurant where they served steaming hot golden chicken soup with big chunks of chewey bread and followed that with ice cold boiled chicken?

When Sam Mandell and Aaron Goldsmith of Baltimore were partners in the manufacturing and sales of the "Jostle" pin game?.....When a young man named Gordon Mills ordered his first few diggers shipped to California - and what a business he built from there on in?.....When some smart (?) guy thought he had hooked Silas Lynch of Dallas by selling him some vending machines long, long ago. Look at the S. H. Lynch Company today.....When a kid named Joe Calcutt collected for a "city slicker" from slots in his home town, and after a few weeks decided this coin machine business was the business for him. Which resulted in the famed Vending Machine Company of Fayetteville, N.C.

The first big run of mint venders in New York 'way back in '28 started by none other than Ed Ravreby in the Bronx with offices on 178th Street? And the Herman Brothers also operated in the Bronx. And then Eddie opened in Manhattan and in Brooklyn and pretty soon spread everywhere in town?.....When Claude Kirk built the "Lark", reel spinning, ball gum vending counter game, in Inglewood, Calif., and appointed Willie Blatt his "eastern distributor". And Willie operated these "ball gum venders" in N.Y.C. even tho they had a 1¢-5¢-10¢ chute. When picked up they were returned to Willie (with the cash intact) because he claimed them to be "ball gum venders". And when asked, "Then why 10¢ a ball of gum?" he used to answer, "If a guy is jerky enough to put in 10¢ - he deserves only a ball of gum." By the way Willie used to get a 50¢ over write for being distrib. Later this was raised to 75¢.

Remember when Hamilton Mfg. Co. the salesboard people, introduced a circular pin game sponsored by none other than Jack Dempsey and how their 'teaser' ads kept the whole industry hotter than a firecracker trying to learn what this sensational game was that the great heavyweight champ was sponsoring?.....And how many can recall when Stewart & McGuire, too, went into the pin game business and introduced a circular poker game where five could play?.....And how many can recall the Richards Mfg. Co. of Winooski, Vt., who entered the pin game manufacturing biz for a very, very short ride, but a gay one?.....The big banquet held by the New York ops at the newest nite club at that time - the Congress - and how the waiters walked out on strike after the club was full and all were seated?

Ed. Garvey's tremendous strength and capacity - for poetry, too, and how he would catch Ray Moloney who would make a sudden run and jump right into his arms at the most unexpected times?.....Henry Lemke and the "Boxing Cats" which he was forced to put on himself because their trainer got drunk and disappeared - and Henry had his hands full that evening in Chicago.....Remember Bally Bumper?.....And remember the ninety-compteen partners who built a game called "Polo" in Utica, N.Y., and couldn't even get delivery for themselves?.....When Harry Wichansky and his brother Sam and Dave Stern were partners?....When Archie Berger learned about the export business?

When Dave Buckman, English distrib. came over in time to travel to the Chi convention with some of the Eastern boys, and had never played poker before, sat down in the game, took trimming after trimming - and then suddenly filled an inside straight - and the guys almost mobbed him?.....When "Curley" Robinson lost an expensive winter coat at the convention and never did find it....When Bill Marmer of Sicking, Cincinnati lost a stickpin at the convention - and did find it?....When Roy McGinnis and Henry Cooper were partners?....When Dick Groetchen returned from Europe with a crude wooden game and turned it into a hit called "Skill Jump"?

(If you have any "Remember 'Way Back Whens' you would like to have published, lets have em.)

C. M. I. BLUE BOOK

The "Coin Machine Industry Blue Book" for new and used coin operated equipment is issued every week. It is a review and digest of all selling prices based upon the market quotations for the week. *Copyrighted 1945 by The Cash Box, 381 Fourth Avenue, New York 16, N. Y.*

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The C.M.I. Blue Book reports each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The C.M.I. Blue Book is to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS
7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS
8. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active in trading the past week.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.

THUNDERBOLT

SENSATIONAL NEW AIRPLANE SHOOTING GAME

NEW — DIFFERENT — FOR YOUR ARCADE
TAKES IN MORE NICKELS THAN 3 OTHER GAMES COMBINED

Player actually has the sensation of flying a fighter plane. He grips a RUDDER STICK with his hand, sights the moving enemy planes, and then presses the MACHINE GUN BUTTON on the RUDDER STICK — scoring hits.

Machine Guns in the wings of the plane flash tracers . . . shots rat-tat-tat . . . flak bursts . . . and a bell rings when scoring.

Mr. Manufacturer...

PLEASE REMEMBER THESE FACTS: A year ago the atomic bomb was a theory and a dream. Today, a few days after first being used, it has abruptly ended the most terrible war in history.

A year ago Heath Distributing Company was an idea. Today, it is the name of one of Dixie's foremost coin machine distributors. As atomic power will be a dominant factor in the world of tomorrow; likewise we expect to be a leading sales house in the coin machine industry.

Our business is established. We have the organization and the necessary qualities of: ambition, foresight, integrity and youthfulness to successfully handle your products. Therefore, as the world enters into the most promising sales era ever known, may we suggest that you consider us in your distributing plans for Georgia and the Southeast.

Phone or write for any desired information or references.

UNCLE SAM IS PROUD OF

Bally

The coveted "E" Flag has been flying over the Bally plant since early in the war. And continued efficiency in war production has added three stars to this symbol of excellence. This outstanding performance for Uncle Sam in war is a forecast of what you can expect in the peacetime manufacture of famous Bally games and venders.
